

Technical Data Sheet
Primed and Ready 1K Primer

DESCRIPTION

Preparation not perspiration! For the very best Metal Veneers surface you should first apply a primer to ensure your carefully chosen Metal Veneer paint has a delightful bed to lie on. Our Primed and Ready 1K Primer has been specially formulated to be best friends with your favourite metal coating.

BENEFITS

- Prevents the underlying surface from corroding
- Boosts the gloss finish of the Metal Veneer effect
- Easy to use
- Optimises surface adhesion of the Metal Veneer effect
- Will smooth the underlying surface, filling any small imperfections or blemishes

SUITABILITY

Suitable for priming smooth surfaces made of wood, metal, aluminium etc

COLOUR

Light grey

SHELF LIFE

1 year

COVERAGE

FLASH OFF TIME

10 – 15 minutes

FINAL DRYING TIME

24 hours

PREPARATION

- Prepare your spraying area by making sure it is well ventilated and there is enough room for you to work comfortably.
- Make sure the surface you want to spray is clean, dust free and dry.
- Abrade the surface with 120 grit sand paper

APPLICATION

1. Shake the aerosol can for 4 minutes once you can hear the agitator ball is free
2. Apply in thin cross coats from a distance of about 250mm from the surface
3. Apply 2 wet coats with 10 – 15 minutes dry time in between each coat
4. Shake the can well before applying each coat.
5. Leave the final coat to fully dry for 24 hours before applying any coating on top.
